EDUCATION

Bachelor of Science, Computer Science, University of Massachusetts Boston 01/2024 — 05/2027

- **Relevant Courses:** Data Structures & Algorithms, Programming in C, Calculus II, Linear Algebra, Discrete Math, Fundamentals of Physics II
- **Dean’s List:** Fall 2024, Spring 2025

Certificates: [Python 3](#) - [Java](#) - [C](#) - [MongoDB](#) - [Intro to GenAI](#) - [HTML](#)

WORK EXPERIENCE

Research Assistant 02/2025 – Present
University of Massachusetts Boston *Boston, MA*

- Refactoring a MATLAB codebase to streamline the 3D brain reconstruction pipeline, improving readability and simulation accuracy in tCS applications.
- Utilizing MATLAB and mesh processing tools to generate precise surface and volume models, improving geometric detail in MRI-based reconstructions.
- Implementing advanced algorithms for systematically adjusting sulci and gyri widths, reducing data loss and increasing accuracy in biomedical simulations.

PROJECTS

Owner, Brutal Note ([Website](#) – [Github](#)) – Built for [Google Chrome Built-in AI Challenge 2025](#) 10/2025

- Built the backend for an offline-first note app using FastAPI, SQLAlchemy, and Supabase Auth with AI proofreading, summarization, and audio-to-notes features.

Owner, Elara AI ([Website](#) – [Github](#)) – 3rd Place Winner in [AI In Action Hackathon](#) 06/2025

- Built FastAPI backend (two-person team) using Vertex AI (Gemini) for symptom extraction, classification, and remedy generation.
- Designed MongoDB Atlas schema and ranking logic for plant recommendations and produced downloadable PDF outputs via Gemini.

Owner, ASL Recognition with TTS ([Github](#)) 04/2025

- Built a real-time ASL recognition system using Python, MediaPipe, a Random Forest classifier, and OpenCV with custom dataset collection and TTS output.

Owner, Embrace Every You – Frontend Web App ([Website](#)) – ([Github](#)) 04/2025

- Built a responsive multi-page educational website using HTML, CSS, and JavaScript with interactive content, reusable components, and accessible UI patterns.

Owner, Myndavals – Photo Sharing Web App ([Website](#) – [Github](#)) 03/2025

- Designed UI components for photo selection, favorite toggles, and responsive layout.
- Built interactive interface elements and improved usability and implemented client-side state logic for selected photos.

MORE ON WEBSITE

SKILLS

Frontend	React, TypeScript, HTML, CSS, Figma
Backend	FastAPI, MongoDB, SQLAlchemy, Supabase
Programming Languages	Python, C, Java, MATLAB, JavaScript
Machine Learning	MediaPipe, Random Forest Classifier, OpenCV
Tools	Git, VS Code, Docker, AutoCAD
Cloud	Google Cloud (Vertex AI, Cloud Run, Cloud Storage)
